DLC = 2/10

Base game = 8/10. Incredible gameplay, great co-op with your friends, and not to mention setting the graphics to "Fantastic" will blow your mind. 9/10. This is a must buy.. This game is a walk in the park. Except the grass is on fire, and you are on fire, and the trees are on fire, and everything is on fire because you are literally in Hell.. This is a good little turn based survival strategy game. Expect to lose the first couple of times while you get the hang of it. In the end there are a variety of strategies to employ, and you need to constantly manage life/heat/food/fuel/rest to keep your colony running.

**BE WARNED:** The game runs in a very small resolution and is not resizeable. I got the game on sale for \$1, and for the price the small resolution did not bother me. But you should know this before you purchase, as if this is a deal breaker for you then you should stay away.

Small resolution was not a dealbreaker for me, and I enjoyed the gameplay. 6/10. This game changed my life for ever. A stunning mix of gameplay and storytelling. One of the most underrated games on Steam. 10/10. Definately worth adding to the stable. The 52's a bit underpowered, but its unusual look makes it a nice change, and the cab provides EXCELLENT views of the scenery... Like a cab/carriage combo, but better. She's my favorite loco for that!

Add in the Armstrong Powerhouse sounds which create a great in-cab sound ambience, and then consider its four hi-class (free!) BR blue skins (which you can add to the game as Customer Consists), and this is a gem. Highly recommended.

100 minutes for whole game?, its strange game (20 minutes for undarstanding fame pay and ONLY 80 minutes for game completion???? not good, sorry. IT DOSN'T WORK!!!!

Why release a something when you can't do anything...?

. Wow, can be a really funny and strategic game when with friends. Great game with an interesting story.. Bought it for 1,39€, absolute bargain! Best Diesel Locomotive in my opinion. Looks great, great sounds and overall very good DLC.  
. I love the concept - I really do. The issue was I personally couldn't immerse myself 100% because the only option is to be a male protagonist. In saying that, it's a good game it really is - worth trying.
